\*These six designated tournaments can be played for prizes from the Thursday before the scheduled tournament up to and including the scheduled tournament time, as long as it is played with another LWGA member and a signed and attested score card is left in the women's locker room. This will provide flexibility for our players who work full time or have other commitments that keep them from playing on Tuesday mornings.

## Scoring Definitions

**Stroke Play** - also called medal play, is a scoring system that involves counting the total number of strokes taken on each hole during a given round, or series of rounds. The winner is the player who has taken the fewest strokes over the course of the round, or rounds.

**Match Play** - is a form of scoring in which a player or team plays against another player or team hole-by-hole. The player or team with the lowest number of strokes wins the hole. The match is won by the player or team with the most holes won.

- Players tie a hole (also known as "halved") when both players complete the hole in the same number of strokes.
- A player wins a match when she leads her opponent by more holes than remain to be played, her opponent concedes the match, or her opponent is disqualified.
- If the match is tied after the final hole, to establish a winner, the match is extended one hole at a time until there is a winner. This is called *Sudden Death*.

For example, in an 18-hole match, the first hole is a par 4 and Player A scores a 3, and Player B scores a 4; Player A is now 1 up with 17 to play. In the same match on the second hole, a par 5, Player A takes 8 strokes and Player B takes 5; Player B wins the hole and the match is now "all square" or AS, with 16 to play. On the third hole, a par 3, both players take 3 strokes and the match is all square with 15 holes to play. Once a player is "up" more holes than there are holes remaining to play, the match is over. For example, if after 12 holes Player A is 7 up with six left to play, Player A is said to have won the match "7 and 6".

### **Match Play Score Card Example**

- Note your net score and compare it to the net score of your opponent.
- If your score is lower, you won the hole and are now "1 up" - note +1.
- If your opponent won the hole, you are "1 down" — note -1.
- If you had the same score (halved the hole), note "AS" for all square.
- Continue to add or subtract one for the following holes, or keep the same score when the hole is halved.

HOLE	1	2	3	4	5	6	7	8	9	OUT
Blue tees	368	193	309	362	333	137	388	329	473	2892

**How to Score Holes Not Played During Round**

If a player is unable to finish a round due to weather or other reasons, she can still post a score for a full round. When playing 9 holes, one must have completed 7 holes and when playing 18 holes, one must have completed 14 holes in order to post a score. For the missed holes, one can record a score of Net Double Bogey, which is double bogey plus any handicap strokes normally received for any hole not played, in accordance with the USGA Rules of Golf. If a player has completed 10 – 13 holes, then a 9-hole score should be submitted.

**Match of Cards** - is a method to determine the winner when a tie occurs at the end of a round. To break the tie, the last nine holes are reviewed by the Tournament Chairs. If the tying players have the same score for the last nine, the winner is determined on the basis of the best score for last six holes, last three holes and finally the 18th hole.

**How to “Stroke Your Card” from Your Course Handicap**  
**Example uses a Course Handicap of 26**

- Starting from your Handicap Index, determine your course handicap. With a 26 Handicap, a player gets 26 strokes over 18 holes.
- Put a dot for each stroke you have, starting with the first toughest hole through the 18th.  
**Note:** The Handicap line on the scorecard indicates the difficulty of each hole in relation to all 18 holes.
- If you still have strokes left, start over by adding a second dot on the # 1 handicap hole, then the #2 handicap hole and repeat this process until you have used up all your handicap strokes.

The number of dots in every box represents the number of strokes you can deduct from your gross score to get your net score on that particular hole.

Example of stoked card for a golfer with a 26 handicap.
